

بسم الله الرحمن الرحيم

: طريقة صنع برنامج رفع ملفات

عن طريق لغة البايثون

البريد الإلكتروني :

mo7ssin-s9ne@hotmail.com

نريد صنع برنامج رفع ملفات للجوال

qfs.mobi

QFS.mobi

ما علينا إلا الذهاب للموقع
وبعد ذلك نضغط بالذر الايمن للماوس
ثم نقوم بعرض مصدر الصفحة

Select up to 5 files to upload

Protect with password

You can also drag and drop files here.

- Select All
- View Page Source
- View Page Info
- Switch Page Direction
- Inspect Element (Q)

QFS.mobi is a free, mobile friendly private file upload and sharing service for mobile devices and PCs. Simply select file(s) from your phone or PC. You'll be given a unique link to share with your friends. Your uploads won't be visible to the public. Unless you delete it, uploads will be available for 30 days. Every download will add 30 more days to it's availability. You can upload files up to 50 MB. By uploading a file you are agreeing to our terms.

بعد ذلك تظهر معانا الشاشة التاليه

```
<div class="inner-wrapper">
<div class="content round-corner">
<div class="center">
  <h2>Select up to 5 files to upload</h2>

  <form method="post" action="upload.aspx" id="form1" enctype="multipart/form-data" onsubmit="return CheckUpload('File1')">
  <input type="file" name="File1" id="File1" class="round-corner" multiple/>
  <div id="pshow" class="bold" style="margin-bottom: 4px;">
  <a onclick="ShowHide('pwbox'); return false;" href="#">Protect with password</a>
  </div>
  <div id="pwbox" style="display:none;">
    Password:
    <input name="pw" type="text" id="pw" class="round-corner"/>
  </div>
  <input type="submit" name="uploadR" id="uploadR" value="Upload" class="btn btn-large" />
  </form>
```

الملف داخل الصفحة

نريد الاسم البرمج

```
<input type="file" name="File1" id="File1"
```

ويهمنا هـ

name="File1"

بعد ذلك نرجع للصفحة ونرفع ملف عادي

"neoshooter 1.png" has been uploaded to

<http://qfs.mobi/f586220>
